FULL STACK DEVELOPER

FARMÁCIAS FALCÃO, TROFENSE, BOA NOVA E JUNCAL

Crafted a simple yet useful webapp for customers to order medicine or prescriptions without the need of leaving their homes during the COVID-19 pandemic. All this with a interactive and fresh-looking map.

■ Nuxt.js (Vue) ■ Go ■ DigitalOcean

OCT 2016 - DEC 2019

CO-FOUNDER & FULL STACK DEVELOPER

UPFRAME

While at Upframe, I've had the opportunity to build a ton of products, some of them just for fun and for open-source purposes. The most notable of these are:

Mentoring platform to connect mentors and aspiring entrepreneurs worldwide, using React and Node.JS (TS).

■ React ■ Node (TS) ■ MySQL ■ AWS

Office-status webapp which updated each person's status as in office or not according to the slack status and the WiFi connectivity.

■ React ■ GCloud Functions ■ Node ■ Python

Pre-acceleration programme promoted by Startup Lisboa as the official in-house pre-acceleration programme.

■ Hugo ■ Markdown ■ Node
