EXPERIENCE

AUG 2016 - NOW
FULL STACK DEVELOPER
UPFRAME

While at upframe, I've had the opportunity to use React and Node.js to build a platform that aims to conect worldwide mentors and aspiring entrepreneurs (connect.upframe.io).

- React   - Node(TS)   - MySQL   - DevOps (AWS)

During Feb 2019, Upframe create a very simple platform to help recent graduates find awesome internships from the hottest startups in Europe. We are excited that it got attention in Github. (internships.upframe.io).

- React   - AirTable

From 2016 to 2017, developed a static page website for a pre-acceleration programme powered by Upframe (old.upframe.io).

- Hugo   - Go   - Node   - CMS

Created an office tool to help coworkers find out whether they want to work remotely or on-site, by showing everyone's status (on-site or remotely).

- IoT   - Node   - GCloud Functions   - Python

OCT 2018 - JAN 2019
FRONTEND DEVELOPER
CLIMBER REVENUE MANAGEMENT

During the 4 months experience at Climber I was in charge of the creation of smooth and beautiful charts to help hotel managers understand their business and better reach their goals.

- Angular   - C3.JS   - D3.js

OCT 2016
WEB DEVELOPER
CRAFT WALLET & FORALLPHONES

Helped improve Shopify theme for an incredible experience.
